Detailed description of project					Type of services provided		
<p>Supporting Rule of Law Reform program consists of two main components. The first component seeks to strengthen the law faculties at four leading universities - Al-Quds, An Najah, Al Azhar, and Bir Zeit - by incorporating legal research into the curriculum, creating student associations, training faculty, and boosting the role of the academic community in the legal sector. The universities will also receive grants to fund technology acquisitions and expand access to resources. The second component will work to assist lawyers and civil society groups with the knowledge and tools needed to affect legal and judicial reform - for example, through coalition building, public awareness campaigns, and continuing legal education.</p>					<ul style="list-style-type: none"> • Administrative and Logistical support • Technical Advisory • Financial management support • Project mobilization
