| <p>TFP aims to ease movement and access restrictions for people and commodities within the West Bank, and between the West Bank and Israel. Activities focus on customs issues and the development of efficient crossing points while addressing legitimate Israeli security concerns.</p> <p>TFP promotes solutions for reducing the impact of movement and access restrictions, research reports and policy analyses, and promotes Palestinian-Israeli dialogue to reduce the impact of movement and access restrictions. In addition, the project provides technical assistance and training to build the capacity of PA Customs officers, improve revenue collection systems</p> |               |                             |  |                                | <ul style="list-style-type: none"> <li>• Technical Advisory</li> <li>• Managerial &amp; Logistical support</li> <li>• Financial management support</li> <li>• Research/ analysis</li> <li>• Financial management support, and</li> <li>• Project startup</li> </ul> |                        |                                    |
